

## AddressSet

```
+ data: set{  
    key: value / BlockSize,  
    value: bitset{  
        size: BlockSize  
    }  
}  
+ intersect_with(AddressSet)  
+ union_with(AddressSet)  
+ any_in_intersect(AddressSet)  
+ subtract(AddressSet)
```
